## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-8 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The closest prior art is WO 00/71602 A1 (*cited as an A reference in the International Search Report*), and US Pat. No. 6,673,361 (*US equivalent document of WO 00/71602*). The prior art discloses a similar triblock polymer, wherein both A segments feature a *modified* amino acid. There is no teaching, suggestion or motivation to alter the prior art to arrive the instant invention. Specifically, there is no teaching, suggestion or motivation to replace one of the A segments with an *unmodified* amino acid group whose functional group is not protected with a protective group.

JP 2002-371131 (*cited as an EX reference in the International Search Report*) discloses the instant invention; however, this reference does not qualify as *prior art*.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 2001/0009662 and US Pat. No. 5,225,532 (*cited as an A reference in the International Search Report*) disclose related materials.
